**To: Contractors, Sub-Contractors and
Home Owners**

From: Edith Hampton, Building Inspector

Re: Concrete Poured Walls Requirements

The Pulaski County Building Department does require inspections for residential poured concrete formed walls, (ex: Symons Silver Gang, Steel-Ply & Resi-Ply).

All types of poured concrete form walls shall be inspected before poured.

The Building Department will be using the following code to ensure compliances:

- **The Virginia Uniform Statewide Building Code**
- **CABO One & Two Families Dwelling Code/1995**
- **Section Foundation Walls**

All forms shall remain up for 48 hours before forms can be removed. This requirement will ensure that the concrete has reached its specified strength per ACI 301, Section 2-3.2.5.

If you have any questions, please feel free to call our office at 540-980-7710.
