Independent Auditors' Report

THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF PULASKI, VIRGINIA

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the remaining fund information of the County of Pulaski, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Pulaski, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Pulaski, Virginia, as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 11, 2013, on our consideration of the County of Pulaski, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and schedules of funding progress in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis and schedules of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Pulaski, Virginia's financial statements as a whole. The introductory section, supplementary

information, supporting schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The supplementary information, supporting schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Management's Discussion and Analysis

The discussion and analysis of the Pulaski County finances for the fiscal year ending June 30, 2012 (FY12) is offered as a way to broaden understanding of the County finances and the impact of those finances on services provided to Pulaski County residents. This report should be read in conjunction with the County's financial statements, which follow this section. By GASB 34 accounting standards, this report includes all County government functions including the Board of Supervisors, Discretely Presented Component Units School Board, Pulaski County Public Service Authority (PSA) and the Industrial Development Authority of Pulaski County (IDA).

Financial Highlights for Fiscal Year 2011-12

- Total net assets value of the primary government was \$36.1 million at the end of FY 12 based on total assets of \$71.0 million and total liabilities of \$34.9 million (Exhibit 1). As noted in Exhibit 1, these liabilities include total payout of long-term debt associated with school construction and remodeling, lease purchase agreements, landfill post-closure monitoring costs, compensated absences, and other post employment benefits while the total assets reflect the depreciated value of existing county owned facilities.
- For FY 12 combined program and general expenditures of \$50.0 million exceeded general revenues of \$45.1 million by approximately \$4.9 million (Exhibit 2). The decrease in net assets is explained further in the Statement of Activities analysis of the Financial Analysis of the County as a Whole section below.
- As described in Exhibit 11, total general fund revenues were \$2.2 million or 5% less than the budgeted \$46.9 million revenue estimate while expenditures were \$3.0 million, or 10% less than the \$46.1 million budgeted expenditures (including transfers). The net change in fund balance was a decrease of \$5.7 million.
- The County's total outstanding debt for school improvements, school construction, economic development, compensated absences and landfill monitoring decreased by \$1.7 million from \$33 million on July 1, 2011 to \$31.3 million on June 30, 2012 (Note 7).
- As described in Note 18, the unassigned fund balance as of June 30, 2012 for the primary government/component unit combined was \$6.4 million, or 6.7% of budgeted FY 13 total County General fund, other governmental funds and Component Unit, School Board operating expenditures in the amount of \$95.3 million. The Board of Supervisors has historically maintained a reserve of the general fund balance of at least 10% of general, special revenue and component unit fund expenditures in order to ensure adequate cash flow throughout the budget cycle and in accordance with good management practices.
- As described in Exhibit 5, the governmental funds balance decreased by approximately \$5.7 million. That amount is explained further in the Analysis of the County Funds section below.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County of Pulaski's basic financial statements which comprise three sections: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements - The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the County is improving or deteriorating when considering both financial condition and physical assets.

The statement of activities shows how the government's net assets changed during the recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for items that will result in financial changes in the present and future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave.)

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, judicial administration, public safety, public works, health and welfare, education, parks, recreation and cultural, and community development. Business-type activities include the operation of the water, sewer and refuse services by the Public Service Authority; and leasing of industrial buildings by the Industrial Development Authority.

The government-wide financial statements include the County (known as the *primary government*), as well as funds of the Pulaski County School Board, the Pulaski County Public Service Authority and the Industrial Development Authority of Pulaski County (known as the *component units*). Financial information for component units are reported separately from the financial information presented for the primary government.

Fund Financial Statements

Traditional users of governmental financial statements will find this portion of the audit report more familiar. The focus of this section of the audit report is on the County's most significant funds, and the fund financial statements provide more information about these funds – not the County as a whole.

The County has three kinds of funds:

Governmental funds – Most of the County's basic services are included in governmental funds, which focus on how cash and other financial assets that can readily be converted to cash flow in and out and the balances left at year end that are available for spending. Consequently, the governmental funds statements report financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided in separate exhibits (4&6) that explains the relationship (or difference) between them.

<u>Proprietary funds</u> – When the County charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported utilizing the full accrual accounting method as are all activities reported in the Statement of Net Assets and Statement of Activities. The County's Internal Service Fund, one type of proprietary fund, is the same as the government-wide business-type activities; however, the fund financial statements provide more detail and additional information, such as cash flows. The County's proprietary funds include the Pulaski County Public Service Authority, the Industrial Development Authority of Pulaski County and the Internal Service Fund.

<u>Fiduciary funds</u> – The County is the trustee, or fiduciary, for the County's agency funds. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. The County's fiduciary funds include Special Welfare, Performance Bond, the Employee Flexible Benefits and Local Sales Tax Funds.

<u>Notes to the basic financial statements</u> - The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required supplementary information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's budgetary comparisons and progress in funding its obligation to provide pension benefits to its employees.

Financial Analysis of the County as a Whole

A comparative analysis of government-wide information is as follows:

Summary of Net Assets:

Details in the government-wide financial statements for FY 12 can be found in Exhibit 1. The following table reflects the condensed Statement of Net Assets (in millions) comparing FY 12 to FY 11.

Summary of Net Assets:

		Total Primary Government			Component Unit School Board			
	_	2012		<u>2011</u>	_	<u>2012</u>		<u>2011</u>
Current and other assets Capital assets, net	\$	24.9 46.2	\$	30.4 47.1	\$	4.8 7.7	\$	4.6 6.2
Total assets	\$	71.1	\$	77.5	\$	12.5	\$	10.8
Other liabilities Long term liabilities Total liabilities	\$	3.6 31.3 34.9		5.7 30.8 36.5		3.9 2.3 6.2		3.9 1.8 5.7
Net Assets: Invested in capital assets, net of related debt Restricted Unrestricted	\$	17.4 0.2 18.5		16.7 0.5 23.8		7.6 0.0 (1.3)		6.2 0.0 (1.1)
Total net assets	\$	36.1	\$	41.0	\$	6.3	\$	5.1

The County's combined net assets decreased from \$37.6 million to \$36.1 million as explained in the Statement of Activities section below. Unrestricted net assets, the portion of net assets that can be used to finance the day-to-day activities of the County, totaled \$18.5 million. Net assets invested in capital assets, net of related debt, represents the amount of capital assets owned by the County and Component Units total \$40.3 million. Net assets are reported as restricted when constraints on asset use are externally imposed by creditors, grantors, contributors, regulators, or imposed by law through constitutional provisions or enabling legislation. Seized asset funds are restricted so that they can be used for specific law enforcement purposes. Component unit (School Board) net assets increased by \$1.2 million, from \$5.1 million in FY11 to \$6.3 million in FY 12.

Capital Assets

The following tables display the County's and School Board's (Component Unit) capital assets at June 30, 2012, as well as the change in capital assets for FY 11 in millions of dollars:

Capital Assets:

·		Total Pr Govern	•	Component Unit School Board		
	_	<u>2012</u>	<u>2011</u>	<u>2012</u>	<u>2011</u>

Net Assets, End of Year	\$	36.1 \$	41.0 \$	6.3 \$	5.1

Revenues

For FY 12, revenues from governmental funds totaled \$45.1 million. General property tax revenues, the County's largest revenue source, were \$22.0 million, an increase of \$0.2 million. Other local taxes (including local sales tax, communications tax, hotel and motel room taxes and meals tax) were \$6.5 million, an increase of approximately \$0.9 million over FY11.

Component unit (School Board) revenues totaled \$45 million for FY12, an increase of \$1.6 million from June 30, 2011 to June 30, 2012. Component Unit State revenues increased by \$0.7 million and Component Unit Federal Revenues increased by \$0.4 million along with and an increase of local government transfers of \$0.5 million.

Expenses

For FY 12, expenses for primary governmental activities totaled \$50 million an increase of \$6.4 million over the prior year as shown in Exhibit 2.

Education is a very high priority in the Pulaski County; consequently the Board of Supervisors contributed \$11.6 million to the operation of the Pulaski County schools excluding debt service costs. This accounts for 24% of the County's total budgeted expenditures. It should also be noted that the Board of

Supervisors has carried over any unused portion of the FY 11 contribution to FY 12 to use towards School operations.

Financial Analysis of the County's Funds

For FY12, the general fund reflects a fund balance of \$19.5 million, a decrease of \$5.7 million from FY11. The following table shows a comparison between the fiscal year ended June 30, 2011 amounts to the fiscal year ended June 30, 2012 amounts for the General Fund as shown in Exhibit 5.

Statement of Revenues, Expenditures and Changes in Fund Balance

			General Fund	
		2012	<u>2011</u>	Change
Revenues:				
General Property Taxes	\$	21.7	\$ 21.7 \$	0.0
Other Local Taxes		6.5	5.6	0.9
Permits, Privilege Fees and Regulatory License	es	0.2	0.7	(0.5)
Fines and Forfeitures		0.0	0.0	0.0
Revenue from Use of Money and Property		0.4	0.3	0.1
Charges for Services		0.6	0.5	0.1
Miscellaneous		0.1	0.1	0.0
Recovered Costs		0.6	0.7	(0.1)
Revenue from the Commonwealth		11.5	11.2	0.3
Revenue from the Federal Government		3.2	3.4	(0.2)
Total Revenues	\$	44.8	\$ 44.2 \$	0.6
Expenditures:				
General Government Administration	\$	2.1	\$ 2.1 \$	0.0
Judicial Administration	Ψ	1.6	1.6	0.0

Public Works		1.7	1.5	0.2
Health and Welfare		10.6	10.8	(0.2)
Education		11.6	11.1	0.5
Parks, Recreation and Cultural		1.3	1.3	0.0
Community Development		6.4	4.5	1.9
Principal		2.1	2.1	0.0
Interest		1.3	1.0	0.3
	\$		\$ 43.4 \$	
Total Expenditures	<u> </u>	40.1	D 43.4 D	
Excess		(1.3)	0.8	(2.1)
Other Financing Sources (Uses)		(4.3)	(1.4)	(2.9)
Net Change in Fund Balance		(5.6)	(0.6)	(5.0)
Fund Balance, Beginning of Year		25.1	25.9	(0.8)
Fund Balance End of Year	\$	19.5	\$ 25.3 \$	(5.8)

The General Fund revenues remained fairly constant from FY 11 to FY 12 with a slight increase of \$0.6 million overall including an increase of \$0.9 million in Other Local Taxes and a reduction of \$0.5 million in Permits, Fees and Licenses. Other increases included \$0.3 million in State revenues, \$0.1 million each in Fines & Forfeitures and Charges for Services which were offset by reductions in Recovered Costs and Federal Revenues.

The general fund education expenditure was increased by \$0.5 million. Community Development expenditures increased by \$1.9 million due to a transfer to the IDA at June 30, 2012 for the Phoenix Packaging Expansion. Plans to work out a loan with the bank for \$2 million loan for Phoenix Packaging were not approved until July 2012 and the funds were promptly returned to the General Fund once the bank loan became available. Overall, all other expenditure categories remained fairly consistent with FY11 figures.

All capital and school board unused appropriations from the 2011 fiscal year were carried over by the Board of Supervisors for use in FY 2012.

General Fund Budgetary Highlights

The following table presents revenues and expenditures for the General Fund only for FY 12 (in millions):

	Original Budget	Amended Budget	Actual	Variance
Revenues:				
Property Taxes	\$ 21.1 \$	21.8 \$	21.7 \$	(0.1)
Other Local Taxes	6.2	6.4	6.5	0.1
Permits, Fees and Licenses	0.2	0.2	0.1	(0.1)
Fines and Forfeitures	0.1	0.1	0.1	-
Revenue from Use of Money and Property	0.3	0.4	0.4	-
Charges for Services	0.5	0.5	0.6	0.1
Miscellaneous	0.1	0.1	0.1	-
Recovered Costs	0.4	0.6	0.6	-
Intergovermental	14.9	16.8	14.7	(2.1)
Total	\$ 43.8 \$	46.9 \$	44.8 \$	(2.1)
Expenditures and transfers:				
General Government Administration	\$ 2.5 \$	2.5 \$	2.1 \$	0.4
Judicial Administration	1.6	1.7	1.6	0.1
Public Safety	7.2	8.2	7.4	8.0
Public Works	1.4	1.8	1.7	0.1
Health and Welfare	11.5	11.5	10.6	0.9
Education	11.9	12.2	11.6	0.6
Parks, Recreation and Cultural	1.3	1.5	1.3	0.2
Community Development	2.6	6.4	6.4	0.0
Non-departmental	0.0	0.0	0.0	0.0
Debt Service	3.4	3.4	3.4	0.0
Transfers	0.0	0.0	0.0	0.0
Total	\$ 43.4 \$	49.2 \$	46.1 \$	3.1

It should be noted that this schedule is shown on the budgetary basis. In comparing the original budget to the amended budget both revenues and expenditures increased. Most of this change can be attributed to carry-over appropriations for County construction projects and unused FY11 local funding for Component Unit (Schools). This trend will continue until building space needs are met by the renovation of the Maple Shade shopping mall, the renovation of the County Administration building, and the renovation of office space for the Sheriff's office.

Economic Factors and Future Budgets

The primary factors affecting the financial viability of Pulaski are limited options for revenue increases, continued fluctuations in state and federal revenues, and continued decline in the national economy.

<u>Limited Revenue Options</u> - Community needs and inflationary pressures require that revenues or governmental efficiency increase in order to maintain and improve the quality of public services currently enjoyed by county residents. Locally generated revenues have historically increased at a rate of approximately 3% excluding the impact of reassessments. During FY11, the rate of increase was 4%, but has increased to the historical rate 3% for FY12. There are legal limits placed by the General Assembly on how counties can raise revenue to meet community needs. An analysis of options indicates that the primary remaining options for raising needed revenue are limited to real estate taxes and personal property taxes.

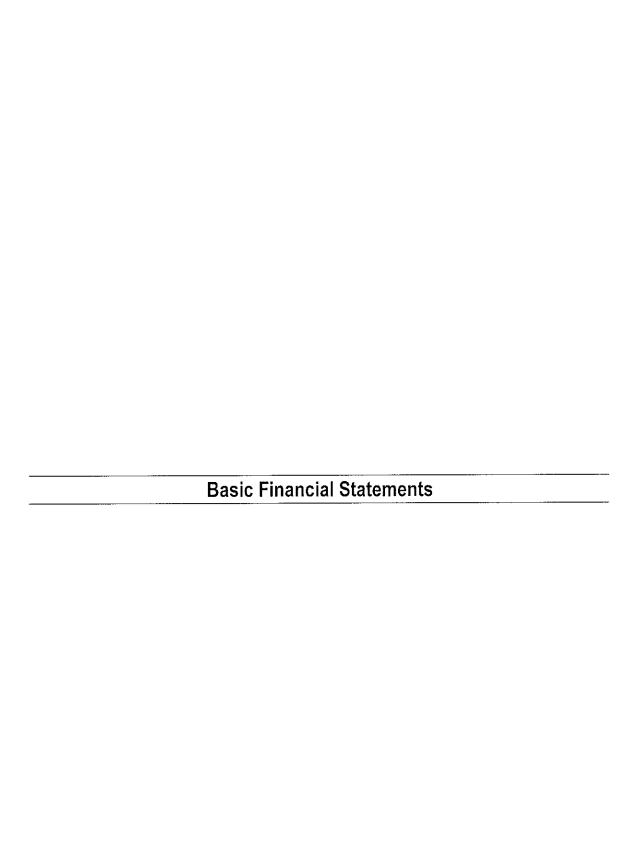

State Revenues - Currently, state funding is projected to account for 38%, or \$36.4 million, of the County and Component Unit (Schools) FY 2013 total budget, while local real estate taxes account for 38% percent of total County general fund revenue, increasing by 5% in FY13. A one percent change in state revenue results in a \$0.4 million change in the local budget, or the equivalent of a \$0.014 cent change on the real estate tax rate. Thus, changes in State revenue have a direct impact on the financial picture of the County and on its ability to meet the needs of County residents.

Other factors that are expected to impact future budgets include:

- 1. Anticipated GASB Statement #45 increases for other post employment benefits.
- 2. Funding for the Capital Improvement Plan will need to address office space needs, funding of joint services, and replacement of leased network connections between buildings.
- 3. The ability to maintain increasing operational costs will be dependent on revenue growth from business activity in the County and/or finding better ways of providing needed community services through joint services and other innovations.
- 4. Funding of the 5% Virginia Retirement System employee pension requirement and healthcare requirements in future budgets with the Affordable Care Act.
- 5. The County will need to invest in new economic development initiatives including the purchase of the next industrial park and conceptualization of future "shell" buildings making possible rapid response to business and industrial needs for new facilities.
- 6. There remains a long-term need for reducing operational costs through joint services, initiatives in the provision of public safety services, tax and utility bill collections and improved property maintenance.
- 7. The condition of the local, regional, state and national economies and a resulting increase in demand for services should economic conditions not improve soon.

Contacting the County's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the County's finances and to demonstrate the County's accountability for the resources it receives and their uses. Questions concerning this report or requests for additional financial information should be directed to the County Administrator, or the Finance Director, at 143 Third Street, NW, Pulaski, Virginia 24301, telephone (540) 980-7705. The County's website address is www.pulaskicounty.org. We welcome the opportunity to present the financial status of the County to citizens, community groups and state agencies in that the resources of the County have a direct effect on the ability to improve the quality of life while addressing nationwide economic and social changes impacting the community.

County of Pulaski, Virginia Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2012

Amounts reported for governmental activities in the Statement of Activities are different because:

Net changes in fund balance - total governmental funds

\$ (6,043,516)

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the depreciation exceeded capital outlays in the current period.

(855,756)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds

205,673

The issuance of long-term obligations (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligation consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the effect of these differences in the treatment of long-term debt and related items.

1,707,872

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

Notes to Financial Statements
June 30, 2012

Note 1-Summary of Significant Accounting Policies:

The financial statements of the County conform to generally accepted accounting principles (GAAP) applicable to government units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

A. Financial Reporting Entity:

The County of Pulaski, Virginia is a political subdivision governed by an elected five-member Board of Supervisors. The accompanying financial statements present the government and its component units, entities, for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations.

Blended Component Units - None

Discretely Presented Component Units - The component unit columns in the financial statements include the financial data of the County's discretely presented component units. The component units are reported in a separate column to emphasize that they are legally separate from the County.

The <u>Pulaski County School Board</u> operates the elementary and secondary schools in the County. School Board members are elected by popular vote. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type. The School Board does not issue a separate report.

The <u>Pulaski County Public Service Authority</u> provides water, sewer and garbage service to County residents. The Public Service Authority is fiscally dependent upon the County because the County has issued several bonds payable by the Authority. In addition, the County Board of Supervisors appoints the Board of Directors. A copy of the Public Service Authority's report can be obtained from the Public Service Authority.

The <u>Pulaski County Industrial Development Authority</u> encourages and provides financing for industrial development in the County. The Authority is fiscally dependent upon the County. In addition, the Authority's Board is appointed by the County Board of Supervisors. A copy of the Industrial Development Authority's report can be obtained from the Industrial Development Authority.

Related Organizations – The County Board appoints board members to outside organizations, but the County's accountability for these organizations does not extend beyond making the appointments.

Notes to the Financial Statements (Continued) June 30, 2012

Note 1- Summary of Significant Accounting Policies: (continued)

B. Government-wide and Fund Financial Statements:

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense – the cost of "using up" capital assets – in the Statement of Activities. The net assets of a government will be broken down into three categories – 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation:

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Notes to the Financial Statements (Continued) June 30, 2012

Note 1- Summary of Significant Accounting Policies: (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation: (continued)

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The County reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for in other funds. The general fund includes the activities of the Virginia Public Assistance, Prepaid Taxes, Comprehensive Services Act funds, and Debt Service funds for both the County and School Board.

The School Construction fund is reported as the County's only major capital projects fund. The fund accounts for and reports financial resources to be used for the acquisition and construction of major school capital projects.

Notes to the Financial Statements (Continued) June 30, 2012

Note 1- Summary of Significant Accounting Policies: (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation: (continued)

The County reports the following non-major governmental fund:

The County Capital Improvements fund is reported as the County's only non-major capital projects fund. The fund accounts for financial resources to be used for the acquisition and construction of major County capital projects as well as acquisitions of other types of capital assets.

Additionally, the County reports the following fund types:

Internal service funds account for and report the financing of goods and services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. The internal service funds consist of the Information Technology, Garage, and Communications Services Fund and the Health Insurance Premiums Fund.

Special revenue funds account for and report the proceeds of specific revenue sources (other than those dedicated for debt service or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. The Tornado Relief Fund is reported as a non-major special revenue fund.

Fiduciary funds (Trust and Agency funds) account for assets held by the government in a trustee capacity or as agent or custodian for individuals, private organizations, other governmental units, or other funds. The Special Welfare, Performance Bond, and Employee Benefit Funds are reported as agency funds.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Notes to the Financial Statements (Continued) June 30, 2012

Note 1- Summary of Significant Accounting Policies: (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation: (continued)

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

D. Assets, liabilities, and net assets or equity:

1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the government, as well as for its component unit school board, are reported at fair value. The State Treasurer's Local Government Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

Receivables and payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance committed account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Notes to the Financial Statements (Continued) June 30, 2012

Note 1- Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity: (continued)

3. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1 of the following year if they remain unpaid. Real estate taxes are payable on June 5th and December 5th. Personal property taxes are due and collectible annually on October 15th. The County bills and collects its own property taxes.

4. Allowance for Uncollectible Amounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$666,358 at June 30, 2012 and is comprised solely of real estate taxes delinquent for 20 years and personal property taxes delinquent for 5 years.

5. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Notes to the Financial Statements (Continued) June 30, 2012

Note 1- Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity: (continued)

6. Capital Assets (continued)

Property, plant, equipment, and infrastructure of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

Asset Type	Years
Buildings	40
Building improvements	20-40
Structures, lines and accessories	20-40
Machinery and equipment	4-30
Land improvements	10

7. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In accordance with the provisions of Government Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. The County accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

8. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuances costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to the Financial Statements (Continued) June 30, 2012

Note 1- Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity: (continued)

9. Fund Equity

Fund balances, presented in the governmental fund financial statements, represent the difference between assets and liabilities reported in a governmental fund. GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental funds. This standard (implemented in 2011) has not affected the total amount of reported fund balances but has substantially changed the categories and terminology used to describe their components. GASB Statement No. 54 requires that fund balances be classified into categories based upon the type of restrictions imposed on the use of funds. The County of Pulaski, Virginia evaluated its funds at June 30, 2012 and classified fund balance into the following five categories:

<u>Non-spendable</u> – amounts that cannot be spent because they are not in spendable form, such as prepaid items and inventory or are required to be maintained intact (corpus of a permanent fund).

Restricted - amounts that are restricted by external parties such as creditors or imposed by grants, law or legislation.

<u>Committed</u> - amounts that have been committed (establish, modify, or recind) by formal action by the entity's "highest level of decision-making authority"; which the County of Pulaski, Virginia considers to be the Board of Directors.

<u>Assigned</u> - amounts that have been allocated by committee action where the government's intent is to use the funds for a specific purpose. The County of Pulaski, Virginia considers this level of authority to be the Board of Directors or any Committee granted such authority by the Board of Directors.

<u>Unassigned</u> -this category is for any balances that have no restrictions placed upon them; positive amount are only reported in the general fund.

The County's highest decision making level is the Board of Supervisors. Action from the Board of Supervisors is required to commit or release funds from commitment.

The County's Board of Supervisors has authorized the County Administrator to assign fund balance to a specific purpose as approved within the County fund balance policy.

10. Net Assets

Net assets are the difference between assets and liabilities. Net assets in the governmentwide and proprietary financial statements are classified as net assets invested in capital assets net of related debt; restricted and unrestricted. Net assets are reported as restricted when there are limitations imposed by creditors, grantors, contributors, or laws or regulations.

Notes to the Financial Statements (Continued) June 30, 2012

Note 2- Reconciliation of Government-Wide and Fund Financial Statements:

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between *fund balance-total* governmental funds and net assets-governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of these (\$31,805,103) and (\$2,203,729) differences for the primary government and discretely presented component unit, respectively, are as follows:

	Primary			Component Unit -			
		Government	School Board				
General obligation bonds	\$	(14,964,031)	\$	-			
General obligation bond premium		(275,382)		-			
Lease revenue notes		(10,580,409)		-			
Lease revenue premium		(495,719)		-			
Literary loans		(3,375,000)		-			
Note payable		(420,000)		-			
Accrued interest payable		(489,779)		-			
Landfill post-closure monitoring costs		(248,106)		-			
Net OPEB obligation		(243,900)		(679,200)			
Compensated absences		(712,777)		(1,624,529)			
Net adjustment to reduce fund balance-total governmental funds to arrive at net assets -							
governmental activities	_\$_	(31,805,103)	_\$_	(2,303,729)			

Notes to the Financial Statements (Continued) June 30, 2012

Note 2- Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances-total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of these (\$855,756) and \$1,460,420 differences for the primary government and discretely presented component unit, respectively, are as follows:

	Primary	Component Unit-
	Government	School Board
Capital outlays	\$ 1,103,547	2,357,672
Net book value of asset disposals	_	(16,024)
Depreciation expenses	(1,959,303)	(881,228)
Net adjustment to increase (decrease) net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	(855,756)	5 <u>1,460,420</u>

Notes to the Financial Statements (Continued) June 30, 2012

Note 2- Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states "the issuance of long-term obligations (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$1,707,872 difference in the primary government are as follows:

	G	Primary overnment
Debt issued or incurred:		
Note payable	\$	(420,000)
Landfill post-closure monitoring costs		(5,815)
Principal payments		
General obligation bonds		1,007,642
Literary loans		375,000
Lease revenue notes		692,346
Amortization of premium		58,699
Net adjustment to increase (decrease) net changes in fund balances - total governmental funds to arrive at		
changes in net assets of governmental activities.	\$	1,707,872

Notes to the Financial Statements (Continued) June 30, 2012

Note 2- Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of these \$105,780 and (\$338,516) differences for the primary government and discretely presented component unit, respectively, are as follows:

		Primary Government	Component Unit- School Board
(Increase) decrease in compensated absences	\$ _	48,197 \$	(215,716)
(Increase) decrease in net OPEB obligation		(29,595)	(122,800)
(Increase) decrease in accrued interest payable	_	87,178	
Net adjustment to increase (decrease) net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental			
activities	\$ _	105,780 \$	(338,516)

Note 3- Stewardship, Compliance, and Accountability:

A. Budgetary Information:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- Prior to April 1st, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. All non-fiduciary funds have legally adopted budgets.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.

Notes to the Financial Statements (Continued) June 30, 2012

Note 3- Stewardship, Compliance, and Accountability: (continued)

A. Budgetary Information: (continued)

- 4. The Appropriations Resolution places legal restrictions on expenditures at the functional level. Only the Board of Supervisors can revise the appropriation for each department or category. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's subcategories.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds (except the School Fund), Debt Service Funds, and the General Capital Projects Fund. The School Fund and School Capital Projects Fund are integrated only at the level of legal adoption.
- 6. All budgets are adopted on a cash basis.
- 7. Appropriations lapse on June 30, for all County units. The County's practice is to appropriate Capital Projects by Project. Several supplemental appropriations were necessary during this fiscal year.
- 8. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year-end, valid outstanding encumbrances (those for which performance under executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.
- B. Excess of Expenditures Over Appropriations:

On the cash basis, Community Development had an excess of expenditures over appropriations totaling (\$36,271), for fiscal year 2012.

C. Deficit Fund Equity:

At June 30, 2012, there were no funds that had deficit fund equity.

Note 4- Deposits and Investments:

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board.

Notes to the Financial Statements (Continued) June 30, 2012

Note 4- Deposits and Investments: (continued)

Deposits: (continued)

Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank of Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

Custodial Credit Risk: (Investments)

The County's rated debt investments as of June 30, 2012 were rated by Standard and Poor's and/or an equivalent national rating organization and the ratings are presented below using the Standard and Poor's rating scale.

County's Rated Debt Investments' Value							
Rated Debt Investments	Fair Quality Ratings						
	Aaam						
LGIP	\$	107,701					
SNAP		53,093					

Concentration of Credit Risk:

At June 30, 2012, the County did not have any investments meeting the GASB 40 definition requiring concentration of credit risk disclosures that exceeded 5% of total investments.

Interest Rate Risk:

At June 30, 2012, the County did not have any investments meeting the GASB 40 definition requiring interest rate risk disclosures.

External Investment Pools:

The State Non-arbitrage Pool (SNAP) is an open-end management investment company registered with the Securities and Exchange Commission

Notes to the Financial Statements (Continued) June 30, 2012

Note 4- Deposits and Investments: (continued)

External Investment Pools: (continued)

The fair values of the positions in the external investment pool, Local Government Investment Pool (LGIP), are the same as the value of the pool shares. As these pools are not SEC registered, regulatory oversight of the pools rests with the Virginia State Treasury. LGIP and SNAP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Note 5- Due From Other Governmental Units:

The following amounts represent receivables from other governments at year-end:

	Primary Government		Component Unit- School Board
Commonwealth of Virginia:	 	•	
State sales tax	\$ 503,811		\$ 754,584
Communication sales tax	214,814		-
Categorical aid-shared expense	258,974		-
Categorical aid-other	115,470		19,362
Categorical aid-VPA funds	140,302		-
Categorical aid-CSA funds	656,206		-
Federal Government:			
Categorical aid-VPA funds	190,471		-
Categorical aid-other	102,804	_	666,087
Totals \$	 2,182,852	\$	1,440,033

Note 6- Component-Unit Obligations:

Fund	Due to			Due from
Primary Government:

Total	\$	4,690,906	\$	4,690,906

Notes to the Financial Statements (Continued) June 30, 2012

Note 6- Component-Unit Obligations: (continued)

Details of due from component unit amounts are as follows:

Pulaski County Industrial Development Authority:

During fiscal year 1990-91, \$500,000 was advanced to the Authority for construction of a building for Renfro, Inc. This advance was made with no repayment terms.

Note 7- Long-Term Obligations:

Primary Government- Governmental Activity Indebtedness:

The following is a summary of long-term obligation transactions of the County for the year ended June 30, 2012.

	-	Balance July 1, 2011		Increases/ Issuances	Decreases/ Retirements	Balance June 30, 2012
General obligation bonds	\$	15,971,673	\$	- \$	(1,007,642) \$	14,964,031
Literary loans		3,750,000		-	(375,000)	3,375,000
Lease revenue notes		11,272,755		-	(692,346)	10,580,409
Note payable		-		420,000	-	420,000
Unamortized bond premiums		829,800		-	(58,699)	771,101
Landfill post-closure monitoring costs		242,291		5,815	•	248,106
Net OPEB obligation		214,305		67,895	(38,300)	243,900
Compensated absences	-	760,974		<u> </u>	(48,197)	712,777
Total	\$	33,041,798	_\$.	493,710 \$	(2,220,184) \$	31,315,324

Notes to the Financial Statements (Continued) June 30, 2012

Note 7- Long-Term Obligations: (continued)

Annual requirements to amortize long-term obligations and related interest are as follows:

Note 9- Employee Retirement System and Defined Benefit Pension Plan:

A. Plan Description:

Name of Plan:

Virginia Retirement System (VRS)

Identification of Plan:

Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity:

Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

Notes to the Financial Statements (Continued) June 30, 2012

Note 9- Employee Retirement System and Defined Benefit Pension Plan: (continued)

A. Plan Description: (continued)

VRS administers two defined benefit plans for local government employees – Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are
 covered under Plan 1. Non-hazardous duty members are eligible for an unreduced
 retirement benefit beginning at age 65 with at least five years of service credit or age 50
 with at least 30 years of service credit. They may retire with a reduced benefit early at
 age 55 with at least five years of service credit or age 50 with at least 10 years of service
 credit
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70 %. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS Web site at http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Notes to the Financial Statements (Continued) June 30, 2012

Note 9- Employee Retirement System and Defined Benefit Pension Plan: (continued)

B. Funding Policy:

Primary Government:

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County of Pulaski, Virginia is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County of Pulaski, Virginia's contribution rate for the fiscal year ended 2012 was 8.77% of annual covered payroll.

Discretely Presented Component Unit- School Board (Non-Professional Employees):

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The School Board's contribution rate for the fiscal year ended 2012 was 7.12% of annual covered payroll.

C. Annual Pension Cost:

For fiscal year 2012, the County of Pulaski, Virginia's and School Board's annual pension costs of \$811,865 and \$163,544 were equal to the County of Pulaski, Virginia's required and actual contributions for the County and the School Board Non-Professionals, respectively.

(1) Excludes member contribution

Notes to the Financial Statements (Continued) June 30, 2012

Note 9- Employee Retirement System and Defined Benefit Pension Plan: (continued)

C. Annual Pension Cost: (continued)

The FY 2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County of Pulaski, Virginia's and the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County of Pulaski, Virginia's and the School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued Liability (UAAL) was 20 years.

D. Funded Status and Funding Progress:

Primary Government:

As of June 30, 2011, the most recent actuarial valuation date, the plan was 80.69% funded. The actuarial accrued liability for benefits was \$43,826,661, and the actuarial value of assets was \$35,363,975, resulting in an unfunded actuarial accrued liability (UAAL) of \$8,462,686. The covered payroll (annual payroll of active employees covered by the plan) was \$9,058,892, and ratio of the UAAL to the covered payroll was 93.42%.

Discretely Presented Component Unit - School Board (Non-Professional Employees):

As of June 30, 2011, the most recent actuarial valuation date, the plan was 83.46% funded. The actuarial accrued liability for benefits was \$9,114,867, and the actuarial value of assets was \$7,607,630, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,507,237. The covered payroll (annual payroll of active employees covered by the plan) was \$2,151,682, and ratio of the UAAL to the covered payroll was 70.05%.

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Notes to the Financial Statements (Continued) June 30, 2012

Note 9- Employee Retirement System and Defined Benefit Pension Plan: (continued)

E. Discretely Presented Component Unit - School Board (Professional Employees)

Plan Description

The Pulaski County School Board contributes to the Virginia Retirement System (VRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Virginia Retirement System. VRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia. The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS Web site at http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All of part of the 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The School Board's contribution to the statewide cost sharing pool for professional employees was \$1,342,616, \$818,957, and \$1,398,761, for the fiscal years ended 2012, 2011, and 2010, respectively and equaled the required contributions for the year. Employer contributions represented 6.33% for the entire fiscal year 2012, 3.93% for the entire fiscal year 2011, and 8.81% from July 2009 through March 2010 and 0.00% from April to June 2010 of annual covered payroll.

Note 10 – Other Post Employment Benefits – Health Insurance:

A. Plan Description

The Pulaski Post-Retirement Medical Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the County. The Plan provides health insurance benefits to eligible retirees and their spouses. To be eligible, employees must meet the age and service criteria for immediate retirement benefits under VRS, which requires that the employee be age 50 with 10 years of service or permanently, totally disabled and injured in the line of duty. Additionally, the employee must be of full-time status in VRS and must be covered by the active plan at the time of retirement or disability. The benefit provisions, including employer and employee contributions, are governed by the County and can be amended through County action. The Plan does not issue a publicly available financial report.

Notes to the Financial Statements (Continued) June 30, 2012

Note 10 - Other Post Employment Benefits - Health Insurance: (continued)

B. Funding Policy

The County establishes employer medical contribution rates for all medical plan participants as part of the budgetary process each year. The County also determines how the plan will be funded each year, whether it will be partially funded or fully funded in the upcoming fiscal year.

The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the County. For fiscal year 2012, the County and School Board contributed \$68,395 and \$408,200, respectively, for current costs of the Plan.

For retirees of both the County and School Board, 100 percent of premiums for both the employee and spouse are the responsibility of the retiree. Coverage under the plan ceases when the employee reaches age 65. Premiums under the Plan are shown below:

	County					School Board						
,	POS		F	PO	De	ental		POS	F	PPO	De	ental
Employee Only	\$	589	\$	431	\$	27	\$	589	\$	431	\$	27
Employee and Spouse		1,187		866		51		1,187		866		51
Employee and Child		1,154		841		44		1,154		841		44
Family		1,655		1,208		81		1,655		1,208		81

C. Annual OPEB Cost and Net OPEB Obligation

The County's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's and School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's and School Board's net OPEB obligation:

Notes to the Financial Statements (Continued) June 30, 2012

Note 10-Other Postemployment Benefits - Health Insurance: (continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

		School	
	County	Board	Total
Annual required contribution	\$ 68,395	\$ 408,200	\$ 476,595
Interest on net OPEB obligation	8,000	21,200	29,200
Adjustment to annual required contribution	(8,500)	(22,600)	(31,100)
Annual OPEB cost (expense)	67,895	406,800	474,695
Contributions made	(38,300)	(284,000)	(322,300)
Increase in net OPEB obligation	29,595	122,800	152,395
Net OPEB obligation - beginning of year	214,305	556,400	770,705
Net OPEB obligation - end of year	\$ 243,900	\$679,200	\$ 923,100

The County's and School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012 and the two preceding years were as follows:

			Percentage of				
Fiscal		Annual	Annual OPEB Cost	N	et OPEB		
Year Ended	C	PEB Cost	Contributed	O	Obligation		
County:							
6/30/2010	\$	88,429	25%	\$	149,929		
6/30/2011		86,376	25%		214,305		
6/30/2012		67,895	56%		243,900

6/30/2011		420,600	55%		556,400		
6/30/2012		406,800	70%		679,200		

Notes to the Financial Statements (Continued) June 30, 2012

Note 10-Other Postemployment Benefits – Health Insurance: (continued)

D. Funded Status and Funding Progress

The funded status of the Plan (County and School Board combined) as of July 1, 2010, the most recent actuarial valuation date, was as follows:

		County	School Board	Total
Actuarial accrued liability (AAL)	\$ -	1,557,770 \$	4,338,412	\$ 5,896,182
Actuarial value of plan assets	_	-	-	
Unfunded actuarial accrued liability (UAAL)	\$	1,557,770 \$	4,338,412	\$ 5,896,182
Funded ratio (actuarial value of plan assets/AAL)		0.00%	0.00%	0.00%
Covered payroll (active plan members)	\$	8,082,191 \$	22,509,012	\$ 30,591,203
UAAL as a percentage of covered payroll		19.27%	19.27%	19.27%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2010, the most recent actuarial valuation date, the entry age actuarial cost method was used. The actuarial assumptions included a 4.5 percent investment rate of return per annum. An annual healthcare cost trend rate of 10 percent initially, reduced by decrements of 0.5 percent until an ultimate rate of 5 percent is reached. Dental costs are assumed to increase 5 percent initially, decreasing by 0.5 percent yearly until and ultimate rate of 3 percent is reached. The UAAL is being amortized as a level percentage over the remaining amortization period, which at June 30, 2012, was 28 years.

Notes to the Financial Statements (Continued) June 30, 2012

Note 11- Other Postemployment Benefits - VRS Health Insurance Credit:

A. Plan Description

The County participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

An employee of the County, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive the maximum monthly health insurance credit of \$45.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 9.

B. Funding Policy

As a participating local political subdivision, the County is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the <u>Code of Virginia</u> and the VRS Board of Trustees. The County's contribution rate was 0.28% of covered payroll.

C. Annual OPEB Cost and Net OPEB Obligation

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The locality is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Notes to the Financial Statements (Continued) June 30, 2012

Note 11- Other Postemployment Benefits - VRS Health Insurance Credit: (continued)

C. Annual OPEB Cost and Net OPEB Obligation: (continued)

For 2012, the County's contribution of \$26,018 was equal to the ARC and OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012 and the two preceding years is as follows:

Fiscal Year Ending	Annual PEB Cost (ARC)	Percentage of ARC Contributed	Net OPEB Obligation
County:			
June 30, 2010	\$ 21,150	100%	-
June 30, 2011	25,089	100%	-
June 30, 2012	26,018	100%	-

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2011, the most recent actuarial valuation date, is as follows:

	County				
Actuarial accrued liability (AAL)	\$	209,518			
Actuarial value of plan assets	\$	133,533			
Unfunded actuarial accrued liability (UAAL)	\$	75,985			
Funded ratio (actuarial value of plan assets/AAL)		63.73%			
Covered payroll (active plan members)	\$	3,871,836			
UAAL as a percentage of covered payroll		1.96%			

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Notes to the Financial Statements (Continued) June 30, 2012

Note 11- Other Postemployment Benefits - VRS Health Insurance Credit: (continued)

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7.5% investment rate of return, compounded annually, including an inflation component of 2.5%, and a payroll growth rate of 3%. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining open amortization period at June 30, 2012 was 25 years.

F. Professional Employees - Discretely Presented Component Unit School Board

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 0.60% of annual covered payroll. The School Board's contributions to VRS for the year ended June 30, 2012 was \$127,262 and equaled the required contributions.

Notes to the Financial Statements (Continued) June 30, 2012

Note 13- Risk Management:

The County and its component unit- School Board are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County and its component unit- School Board participate with other localities in a public entity risk pool for their coverage of general liability and auto insurance with the Virginia Association of Counties (VACO). Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The County and its component unit- School Board pay the VACO contributions and assessments based upon classification and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss, deficit or depletion of all available excess insurance, the pool may assess all members in the proportion in which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County and its component unit- School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three fiscal years.

Note 14- Contingent Liabilities:

Federal programs in which the County and its component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments</u>, and <u>Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

The above constitutional officers' employees - blanket bond	50,000
All Social Services employees - blanket bond	100,000
VACo Risk Management Programs	
All County employees - blanket bond	\$ 250,000
United States Fidelty and Guaranty	
Peter M. Huber, County Administrator	\$ 2,000
Componenet Unit - School Board:	
VACo Risk Management Programs	
All School Board employees - blanket bond	\$ 250,000

Note 16- Landfill Liability:

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. The County closed its landfill at Cloyd's Mountain in 1989. At June 30, 2012, the total post-closure care liability (which represents the 7 years remaining) was \$248,106 representing what it would cost to perform all post-closure care in fiscal year 2012. Actual costs for both post-closure monitoring may change due to inflation, deflation, changes in technology, or changes in regulations. The County demonstrated financial assurance requirements for closure, post-closure care through the submission of a Local Government Financial Test to the Virginia Department of environmental Quality in accordance with section 9VA C20-70 of the Virginia Administrative Code.

Notes to the Financial Statements (Continued) June 30, 2012

Note 17 - Deferred/Unearned Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$2,107,481 is comprised of the following:

<u>Prepaid Property Taxes</u> - Property taxes due subsequent to June 30, 2012, but paid in advance by the taxpayers totaled \$160,588 at June 30, 2012.

<u>Property Taxes Receivable</u> – Taxes billed and not due until after June 30, 2012, less amounts received 60 days after the period end totaled \$1,946,893 at June 30, 2012.

DISCRETELY PRESENTED COMPONENT UNIT- SCHOOL BOARD

MAJOR GOVERNMENTAL FUND

<u>School Operating Fund</u> - The School Operating Fund accounts for the operations of the County's school system. Financing is provided by the State and Federal governments as well as contributions from the General Fund of the County. The Cafeteria and Governor's School Funds have been merged for reporting purposes.

Fund Balance - Beginning	*	885,811
Fund Balance - Ending	\$	971,853
Amounts reported for governmental activities in the Statement of Activities (Exhibit 2) are different because:		
Net change in fund balance - total governmental funds - per above	\$	86,042
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.		1,476,444
In the statement of activities, only the <i>loss</i> on the sale of capital assets is reported, However, in the governemtnal funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differes from the change in fund balance by the cost of the capital asset sold.		(16,024)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditure in governmental funds.		(338,516)
Change in net assets of governmental funds - component unit school board	\$	1,207,946

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF PULASKI, VIRGINIA

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Pulaski, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County of Pulaski, Virginia's basic financial statements and have issued our report thereon dated January 11, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the Specifications for Audits of Counties, Cities, and Towns, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the County of Pulaski, Virginia is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the County of Pulaski, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Pulaski, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Pulaski, Virginia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Pulaski, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County of Pulaski, Virginia in a separate letter dated January 11, 2013.

This report is intended solely for the information and use of management, Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

To the Honorable Members of the Board of Supervisors County of Pulaski, Virginia

Compliance

We have audited the County of Pulaski, Virginia's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the County of Pulaski, Virginia's major federal programs for the year ended June 30, 2012. The County of Pulaski, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Pulaski, Virginia's management. Our responsibility is to express an opinion on the County of Pulaski, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Pulaski, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Pulaski, Virginia's compliance with those requirements.

In our opinion, the County of Pulaski, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of the County of Pulaski, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Pulaski, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Pulaski, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their

assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Note 1 -- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Pulaski, Virginia under programs of the federal government for the year ended June 30, 2012. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the County of Pulaski, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Pulaski, Virginia.

- Note 2 -- Summary of Significant Accounting Policies
 (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB A-87.

 Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
 (2) Pass-through entity identifying numbers are presented where available.

County of Pulaski, Virginia Schedule of Expenditures of Federal Awards (continued) For the Fiscal Year Ended June 30, 2012

Note 3 -- Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of commodities received and disbursed. At June 30, 2012, the County had no food commodities in inventory.

Note 4 -- Relationship to the Financial Statements:

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows: Intergovernmental federal revenues per the basic financial statements:

Primary Government:	_	
General Fund total	5	3,200,381
Add: Note Payable proceeds - County CIP Fund		420,000
