## WATER AND/OR SEWER SERVICE ADDITIONAL INFORMATION

## CROSS CONNECTION AND BACKFLOW PREVENTION REQUIREMENTS

In addition to the other PSA regulations, water service regulations include, but are not limited to, the cross connection and backflow prevention control ordinance which prevents any connection to the system supplied by the Pulaski County Public Service Authority from any other water source unless the method of connection and use of such system has been issued a permit approved by the Pulaski County Public Service Authority. This ordinance gives authorization for inspection of the applicant's water system. Reference is given to the Cross Connection and Backflow Prevention Control Ordinance for a detail inspection and/or testing requirements.

NOTE: Customer may elect to provide individual meters or a master meter for projects serving multiple users. Customer should explore both options and billing rates for such connections.

1.	If applying for water or sewer service, does this service require replacement of new water and/or sewer lines to be installed by the applicant to serve this property? YES NO
	If yes, give building permit number:
	NOTE: A building permit must be issued for the installation of any water and/or sewerlines installed by the owner prior to the provision of service by the PSA. It is the responsibility of the applicant, owner or agent to acquire this permit.
2.	Residential connections do not require a backflow preventer. However, a backflow preventer may be required for commercial and industrial connections. The county engineer must review this application and note type of backflow preventer which may be required. Backflow prevention required?  YES NO
CON	NECTION FEES:

Domestic water connection fee: \$700 Domestic sewer connection fee: \$700

Other connection fees to be determined on an individual basis.
